## Suggested Guidelines for Planning Parties with my Services.

*\*Please consider these suggestions to improve my performance at your event.*

- **Guests and I do need 2 chairs and a comfortable space...** with ample light, shielded from hot sun & extreme noise.
- **Allow me to Move if need be...** along with signs & theme decorations. I may need to move to where the party moves!
- **Guests should be willing to pose for a couple of minutes.** I don't sketch from photos. I sketch only from life.
- **While I draw children well,** my careful ink brush drawing style isn't appropriate for exclusive baby or toddler events.
- **Do not create sign-up waiting lists.** Sign-up sheets seem like a sound idea, but in practice create awkward conflicts! I resolve most "waiting-line" situations with planning, humor and diplomacy!
